

MARCH 9, 2018

SPORT FISHING ADVISORY COMMITTEE: SOUTHERN RESIDENT KILLER WHALE (SRKW) DISCUSSION

**7:00 p.m., Friday, Bass Pro Shops
Tsawwassen Mills, BC**

Fisheries and Oceans Canada (DFO) has proposed measures to aid in the recovery of endangered Southern Resident Killer Whales (SRKW). Public comment on those proposals is open until March 15.

You are welcome to attend this special meeting of the Sport Fishing Advisory Committee to learn about the proposal and how measures would effect sport fishing opportunity and recreational boating behaviour around southern Vancouver Island, Georgia Strait and the mouth of the Fraser River. Ed George, Lower Fraser Valley SFAC Chair and BCWF, and Martin Paish, SFAB and Sport Fishing Institute of BC, will provide a presentation on SRKW and the proposed measures starting at 7:00 p.m.

Questions, comments and feedback welcome.
